Education

Lovely Professional University B.Tech in Computer Science	2022 – 2026 CGPA: 7.85
Pragya Bharti Public School 12th with Science	2019 – 2021 Percentage: 87%
DPS Vidya Mandir 10th with Science	2018 – 2019 Percentage: 92.03%

Experience

Web Developer Head | Rtra-LPU | Jan 2024 - Present

- Led a team of 4 developers to build a platform for organizing events and workshops.
- Increased user engagement by 40% through streamlined registration workflows and dynamic interfaces.
- Implemented secure storage for managing sensitive student data using MongoDB, reducing retrieval time by 60%.
- Key tools and technologies: Angular, MongoDB, Node.js, Zod.

Projects

FairyMate, Healthcare Platform | GitHub Link

- **Objective:** Developed a telehealth platform connecting over 500 patients and healthcare professionals.
- **Features:** Integrated video calls, appointment scheduling, and AI-based symptom checking, reducing appointment handling time by 50%.
- **Technologies Employed:** React, Node.js, MongoDB.
- **Achievements:** Reduced onboarding time by 30% and achieved 99.9% uptime by implementing optimized API handling and database indexing.

RTRA Live Website | GitHub Link

- **Objective:** Developed an event management platform for organizing technical workshops and events, serving 1,000+ users.
- **Features:** Dynamic registration portal, event calendars, and automated email notifications, leading to a 50% increase in participation.
- **Utilized Technologies:** Angular for front-end, Node.js for server-side, and MongoDB for data storage.
- **Achievements:** Managed over 200+ student records and ensured seamless data synchronization.

NIRMAAN | GitHub Link

- **Objective:** Designed a machine learning-based app to monitor construction progress for small and medium-sized construction firms.
- **Features:** Real-time tracking, automated progress reports, and cloud-based image analysis, reducing manual inspections by 70%.
- **Leveraged Technologies:** React Native, Tailwind CSS, MongoDB.
- **Achievements:** Achieved 85% accuracy in detecting anomalies using image recognition algorithms.

Technical Skills

Languages: C++, C, Java, Python

Technologies/Frameworks: MongoDB, SQL, JavaScript, TypeScript, React, Node.js, Angular, Git, React Native

Skills: Data Structures and Algorithms, Responsive Web Design, Scripting in Python and JavaScript.

Certifications

Introduction to MongoDB | MongoDB | [Certificate Link](#)

The Bits and Bytes of Computer Networking | Google | [Certificate Link](#)

Dynamic Programming, Greedy Algorithms | University of Colorado Boulder | [Certificate Link](#)

Additional Experience and Awards

TCS Codevita: Global rank 836 in TCS Codevita season-11.

Leetcode: Solved 450+ problems (1450+ rating, top 50%).

Technothon: City rank 2 (organized by IIT Guwahati).

LinkedIn: 5000+ followers.
